

Contents

Volume 1

Part 1 Fundamentals

- 1.1 Principles of epidemiology and research methodology *Christopher Bulstrode 3*
- 1.2 Measurement
 - 1.2.1 Classification and outcomes measures *A.C. Macey 9*
 - 1.2.2 Statistics *Christopher Bulstrode 13*
- 1.3 Principles of diagnosis and management *Aaron G. Rosenberg and Richard A. Berger 19*
- 1.4 Genetic disorders of the skeleton *Andrew Carr 37*
- 1.5 The musculoskeletal system: structure and function *Christopher Bulstrode 77*
- 1.6 Tumors
 - 1.6.1 Endoprosthetic replacement of skeletal malignancies *T.R.W. Briggs and G.W. Blunn 87*
 - 1.6.2 Biopsy for suspicion of tumor *T.R.W. Briggs, R. Mitchell, and Ann Sandison 96*
 - 1.6.3 Overview of musculoskeletal tumor
 - 1.6.3.1 Musculoskeletal tumors and lesions that resemble tumors *Joseph A. Buckwalter and Kristy Weber 100*
 - 1.6.3.2 Biopsy of musculoskeletal tumors *J. Sybil Biermann 104*
 - 1.6.3.3 Staging and surgical margins in musculoskeletal tumors *Peter Choong 110*
 - 1.6.4 Lesions that resemble bone neoplasms
 - 1.6.4.1 Unicameral bone cyst *Kristy Weber 120*
 - 1.6.4.2 Aneurysmal bone cyst *Kristy Weber 126*
 - 1.6.4.3 Fibrous cortical defect/nonossifying fibroma *Kristy Weber 131*
 - 1.6.4.4 Bone island *Kristy Weber 135*
 - 1.6.4.5 Fibrous dysplasia *Kristy Weber 137*
 - 1.6.5 Lesions that resemble soft-tissue neoplasms
 - 1.6.5.1 Ganglion cyst *Diva R. Salomao and Antonio G. Nascimento 142*
 - 1.6.5.2 Intramuscular myxoma *Joseph A. Buckwalter, Eric A. Brandser, and Robert A. Robinson 142*
 - 1.6.5.3 Myositis ossificans *Michael G. Rock 144*
 - 1.6.5.4 Nodular fasciitis *Diva R. Salomao and Antonio G. Nascimento 150*
 - 1.6.6 Benign bone neoplasms
 - 1.6.6.1 Osteoid osteoma *Kristy Weber 151*
 - 1.6.6.2 Osteblastoma *Panayiotis J. Papagelopoulos, Evanthia C. Galanis, Pietro Ruggieri, and Franklin H. Sim 157*
 - 1.6.6.3 Giant cell tumor of bone *James O. Johnston 161*
 - 1.6.6.4 Chondromyxoid fibroma *Michael G. Rock 167*
 - 1.6.6.5 Chondroblastoma *Michael G. Rock 171*
 - 1.6.6.6 Langerhans cell histiocytosis *Joseph A. Buckwalter, Eric A. Brandser, and Robert A. Robinson 176*
 - 1.6.6.7 Osteochondroma *Kristy Weber 177*
 - 1.6.6.8 Enchondroma *Kristy Weber 186*
 - 1.6.6.9 Periosteal chondroma *Kristy Weber 192*
 - 1.6.6.10 Hemangioma *Diva R. Salomao and Antonio G. Nascimento 194*
 - 1.6.7 Benign soft-tissue neoplasms
 - 1.6.7.1 Lipoma *Diva R. Salomao and Antonio G. Nascimento 196*

- 1.6.7.2 Cavernous lymphangioma of the extremities *William F. Blair and Joseph A. Buckwalter* 197
 - 1.6.7.3 Glomus tumors *David M. Oster* 200
 - 1.6.7.4 Neurofibroma *Diva R. Salomao and Antonio G. Nascimento* 203
 - 1.6.7.5 Extra-abdominal desmoid tumors *Douglas J. Pritchard* 204
 - 1.6.7.6 Elastofibroma *Joseph A. Buckwalter and Eric A. Brandser* 208
 - 1.6.7.7 Giant cell tumor of tendon sheath *Diva R. Salomao and Antonio G. Nascimento* 211
 - 1.6.7.8 Schwannoma *Diva R. Salomao and Antonio G. Nascimento* 212
 - 1.6.7.9 Synovial chondromatosis *J. Sybil Biermann* 213
 - 1.6.8 Malignant bone neoplasms
 - 1.6.8.1 Adamantinoma *Kristy Weber* 219
 - 1.6.8.2 Osteosarcoma and variants *Mark C. Gebhardt and Francis J. Hornicek* 224
 - 1.6.8.3 Chondrosarcoma of bone *Steven Gitelis, Alexander Templeton, and Michael Hejna* 238
 - 1.6.8.4 Ewing's sarcoma *Richard Vlasak and Franklin H. Sim* 255
 - 1.6.8.5 Malignant vascular tumors of bone *Michael G. Rock* 264
 - 1.6.8.6 Myeloma of bone *Frank J. Frassica, Deborah A. Frassica, Steven A. Lietman, and Franklin H. Sim* 269
 - 1.6.8.7 Lymphoma of bone *J. Sybil Biermann* 275
 - 1.6.8.8 Fibrosarcoma of bone *Evanthia C. Galanis, Douglas J. McDonald, and Franklin H. Sim* 283
 - 1.6.8.9 Malignant fibrous histiocytoma of bone *Panayiotis J. Papagelopoulos, Evanthia C. Galanis, Douglas J. McDonald, and Franklin H. Sim* 288
 - 1.6.8.10 Chordoma *Kristy Weber and Franklin H. Sim* 294
 - 1.6.9 Malignant soft-tissue neoplasms
 - 1.6.9.1 Liposarcoma *Peter Choong* 300
 - 1.6.9.2 Malignant fibrous histiocytoma of soft tissue *Peter Choong* 304
 - 1.6.9.3 Fibrosarcoma of soft tissue *Peter Choong* 307
 - 1.6.9.4 Leiomyosarcoma of soft tissue *Peter Choong* 309
 - 1.6.9.5 Synovial sarcoma *Peter Choong* 312
 - 1.6.9.6 Malignant peripheral nerve sheath tumors *Peter Choong* 315
 - 1.6.9.7 Malignant vascular tumors of soft tissue *Peter Choong* 318
 - 1.6.9.8 Rhabdomyosarcoma *Carola A.S. Arndt* 323
 - 1.6.9.9 Epithelioid sarcoma *Douglas J. Pritchard* 328
 - 1.6.9.10 Clear cell sarcoma *Diva R. Salomao and Antonio G. Nascimento* 331
 - 1.6.9.11 Skin cancer: melanoma, basal cell carcinoma, and squamous cell carcinoma *Robert W. Demetrius, Clark C. Otley, and Randall K. Roenigk* 332
 - 1.6.10 Metastatic neoplasms
 - 1.6.10.1 Metastatic bone disease due to carcinoma *Evanthia C. Galanis and Franklin H. Sim* 340
 - 1.6.10.2 Metastatic neuroblastoma *Evanthia C. Galanis, Carola A.S. Arndt, and Franklin H. Sim* 358
 - 1.6.10.3 Wilms' tumor *Evanthia C. Galanis, Carola A.S. Arndt, and Franklin H. Sim* 361
 - 1.7 Injury and repair
 - 1.7.1 Injury and repair *Fred F. Behrens, J. Schwappach, K. Swan, A. Levy, R. Barbieri, R. Forster, and D. Mahalick* 365
 - 1.7.2 The evidence for thromboprophylaxis *Christopher Bulstrode* 394
 - 1.8 Hemoglobinopathies *Paul Giangrande* 397
 - 1.9 Fundamentals of infection *Anthony R. Berendt and Benjamin A. Lipsky* 401
 - 1.10 Pain and its control *Henry McQuay* 415
 - 1.11 Biomechanics *A.B. Zavatsky* 425
 - 1.12 Locomotion analysis *Richard A. Brand* 439
 - 1.13 Imaging *Eric A. Brandser and Georges Y. El-Khoury* 455
- ## Index [1]
- ### Volume 2
- #### Part 2 Adult orthopedics
- 2.1 Spinal disorders
 - 2.1.1 Cervical spine
 - 2.1.1.1 Clinical presentations and degenerative disorders *Howard S. An* 481
 - 2.1.1.2 Inflammatory disorders of the cervical spine *Jeremy Fairbank* 492

- 2.1.1.3 Ossification of the posterior longitudinal ligament *Yoshaki Yamano* 494
- 2.1.2 Degenerative disease of the thoracic spine *Robert A. Hart and Henry H. Bohlman* 498
- 2.1.3 Lumbar spine
 - 2.1.3.1 Clinical presentations of the lumbar spine *Jeremy Fairbank* 505
 - 2.1.3.2 Nonoperative management of simple back pain (type 1) *Jennifer Klaber Moffett and Helen Frost* 512
 - 2.1.3.3 Surgical management of type 2 back pain (chronic low back pain) *Jeremy Fairbank* 515
 - 2.1.3.4 Psychological factors and rehabilitation programs for chronic low back pain *E.J. Ghadiali* 518
 - 2.1.3.5 Functional restoration programs for chronic low back pain (types 2 and 5) *Helen Frost and C.A. Shackleton* 520
 - 2.1.3.6 Nonoperative treatment of type 3 pain (radicular pain) *J.R. Jenner* 522
 - 2.1.3.7 Surgical treatment of lumbar disk herniations and lateral zone stenosis *John A. McCulloch* 523
 - 2.1.3.8 Management of neurogenic claudication *Richard Porter* 535
 - 2.1.3.9 Recovery from low back injury: the effect of compensation *Charles C. Greenough* 540
 - 2.1.3.10 Failed back surgery *Robert C. Mulholland* 543
 - 2.1.3.11 Non-degenerative causes of low back pain and sciatica *Gordon Findlay* 546
 - 2.1.3.12 Pregnancy-related back pain *Jeremy Fairbank* 549
 - 2.1.3.13 Sacrum and coccyx *Jeremy Fairbank* 550
 - 2.1.3.14 Cross-sectional imaging in spinal disorders *E. McNally* 552
 - 2.1.3.15 Neurophysiological investigation of the spine *J. Dvorak* 562
- 2.1.4 Spinal deformities
 - 2.1.4.1 Clinical presentation of spinal deformities *Jeremy Fairbank* 563
 - 2.1.4.2 Idiopathic scoliosis *Jeremy Fairbank* 574
 - 2.1.4.3 Development of the spine *Károly M. Dávid and H. Alan Crockard* 582
 - 2.1.4.4 Congenital scoliosis and kyphosis *Jeremy Fairbank* 584
 - 2.1.4.5 Paralytic scoliosis *Frank E. Dowling* 589
 - 2.1.4.6 Syndromal scoliosis *Robert A. Dickson* 593
 - 2.1.4.7 Neuromuscular scoliosis *C.S.B. Galasko* 604
 - 2.1.4.8 Management of spinal deformity in infants and young children *J. Dubousset* 611
 - 2.1.4.9 Management of scoliosis in adults *Norbert Boos and John K. Webb* 615
 - 2.1.4.10 Iatrogenic deformity *Paul Rhys Davies and John K. Webb* 622
 - 2.1.4.11 Brace treatment in idiopathic scoliosis: the case for treatment *Stig Willner* 624
 - 2.1.4.12 School screening for scoliosis *Caroline J. Goldberg* 626
- 2.1.5 Kyphosis *Michael Grevitt and John K. Webb* 628
- 2.1.6 Spondylolisthesis and spondylolysis
 - 2.1.6.1 Spondylolisthesis and spondylolysis *Dietrich Schlenzka* 634
 - 2.1.6.2 Spondylolisthesis: the case for fusing in situ *Dietrich Schlenzka* 646
 - 2.1.6.3 Rationale for reduction of severe spondylolisthesis *René Louis* 649
- 2.1.7 The infected spine *T.R. Morley* 650
- 2.2 Shoulder and elbow
 - 2.2.1 The clinical evaluation of the shoulder *A. Bonomo* 657
 - 2.2.2 Impingement syndrome *G. Schippinger* 670
 - 2.2.3 Rotator cuff tears *Ralph Hertel, Simon Lambert, and Thomas J. Gill* 682
 - 2.2.4 The clavicle and the sternoclavicular and acromioclavicular joints *Gavin M. Holt and David Stanley* 691
 - 2.2.5 Instability of the glenohumeral joint *V.B. Conboy* 705
 - 2.2.6 Degenerative and rheumatoid arthritis of the glenohumeral joint *Jenö Kiss* 721
 - 2.2.7 Calcifying tendonitis *Don Wallace and Andrew Carr* 739
 - 2.2.8 Frozen shoulder *Jonathan Clasper* 743
 - 2.2.9 Disorders of the scapula *Roger Emery* 749
 - 2.2.10 Synovial chondromatosis of the shoulder *Fabio Catani* 759
 - 2.2.11 Clinical evaluation of elective problems in the adult elbow *James Elliott* 761
 - 2.2.12 Lateral and medial epicondylitis *Michael Thomas* 768

- 2.2.13 Chronic instability of the elbow *David Woods* 772
- 2.2.14 Rheumatoid arthritis of the elbow *L.A. Rymaszewski* 781
- 2.2.15 Osteoarthritis of the elbow and the painful and stiff elbow *John R. Williams* 798
- 2.2.16 Loose bodies in the elbow joint and elbow arthroscopy *John R. Williams* 804
- 2.2.17 Bursitis of the elbow *I.S.H. McNab* 810
- 2.3 Hand and wrist
- 2.3.1 Assessment and investigation of chronic wrist pain *I.A. Trail, D. Temperley, and J.K. Stanley* 815
- 2.3.2 Degenerative arthritis of the wrist *Peter Burge and David Warwick* 822
- 2.3.3 Kienböck's disease *John A. Miyano and Thomas E. Trumble* 827
- 2.3.4 Distal radio-ulnar joint *J.S. Williamson and G.J.W. King* 835
- 2.3.5 Clinical presentations in the hand *L.C. Bainbridge* 847
- 2.3.6 Rheumatoid arthritis of the hand and wrist *J. Stothard* 857
- 2.3.7 Osteoarthritis of the hand *T.R.C. Davis* 867
- 2.3.8 Dupuytren's disease *Peter Burge* 877
- 2.3.9 Tendon disorders *David Warwick and Peter Burge* 886
- 2.3.10 Reconstruction after nerve injury *T.E.J. Hems* 892
- 2.3.11 Peripheral nerve entrapment *Arnold-Peter C. Weiss* 902
- 2.3.12 Neurophysiologic examination of the hand and wrist *Kerry R. Mills* 912
- 2.3.13 Tumors and hand reconstruction *D. Glynn Bolitho* 920
- 2.3.14 Ganglia of the wrist and hand *Douglas A. Campbell and Peter Burge* 929
- 2.3.15 Hand infection *Joseph F. Slade III and Andrew P. Gutow* 933
- 2.4 Hip and pelvis
- 2.4.1 Social significance of osteoarthritis of the hip and outcome measures *Ray Fitzpatrick, Jill Dawson, and Evelyn Shortall* 947
- 2.4.2 The problem hip *C.L.M.H. Gibbons* 954
- 2.4.3 Protrusio *Nicholas Goddard* 962
- 2.4.4 Subluxation/dislocation secondary to dysplasia and neurologic disorders *Scott S. Kelley and Paul F. Lachiewicz* 964
- 2.4.5 The hip in inflammatory joint disease *R. Gundle* 968
- 2.4.6 Avascular necrosis of the femoral head *A.J. Edge and T. Sarkhel* 973
- 2.4.7 Osteonecrosis of the femoral head: the North American perspective *Edward Y. Cheng* 981
- 2.4.8 Miscellaneous problems around the hips *J.M. de Leeuw and R.N. Villar* 991
- 2.4.9 The management of post-traumatic arthrosis of the hip in young patients *David H. Sochart and Martyn L. Porter* 995
- 2.4.10 Problem hips: nonoperative management *Anthony Bradlow, Susan Hicks, and Angela Sandall* 1001
- 2.4.11 Surgical options for a painful hip apart from total hip replacement *T.N. Theologis and C.L.M.H. Gibbons* 1004
- 2.4.12 Indications for total hip replacement *R. Crawford* 1010
- 2.4.13 Hip arthroplasty: cemented stems *Johan Kärrholm* 1013
- 2.4.14 Which implant and which method of fixation? *R. Crawford and D. Murray* 1030
- 2.4.15 Prevention of thrombosis in hip surgery: techniques and results *David Warwick* 1037
- 2.4.16 Blood salvage at total hip replacement: primary and revision *David C. Ayers* 1044
- 2.4.17 Complications in total hip replacement: dislocation, infection, and neurovascular injury *Kevin L. Garvin* 1046
- 2.4.18 Revision hip arthroplasty *David A.F. Morgan, Rajesh Malhotra, and Imran Ilyas* 1053
- 2.4.19 Periprosthetic osteolysis *G.E.D. Howell and Robert B. Bourne* 1086
- 2.4.20 Periprosthetic fractures around total hip replacement *R.N. de Steiger* 1097
- 2.4.21 Bone grafting: hip and knee *Gordon Bannister* 1102
- 2.5 Knee
- 2.5.1 Clinical presentation of the knee *G.E.D. Howell* 1107
- 2.5.2 Magnetic resonance imaging of the knee *J.L. Hobby* 1113
- 2.5.3 The value of lavage in osteoarthritis of the knee *M.J.S. Hubbard* 1115
- 2.5.4 Osteotomies about the knee *Andrew S. Cole and Julian R. Flynn* 1117
- 2.5.5 Patellectomy *N.D. Rossiter and C.L.M.H. Gibbons* 1125
- 2.5.6 Arthrodesis of the knee *A.S. Floyd* 1127
- 2.5.7 Cemented knee replacements *Giles R. Scuderi and John N. Insall* 1128
- 2.5.8 The early complications of total knee replacement *Mark E. Emerton* 1135

- 2.5.9 Revision total knee replacement *R. Gundle* 1141
- 2.5.10 Tumors and tumor-related conditions about the knee *H.T. Temple and C.L.M.H. Gibbons* 1153
- 2.5.11 Osteonecrosis of the knee *Nicholas Goddard* 1163
- 2.5.12 The patellofemoral joint *G. Bentley and A. Hashemi-Nejad* 1166
- 2.5.13 General observations on surgery of the anterior cruciate ligament *David J. Dandy* 1179
- 2.5.14 Outcome measurement after anterior cruciate ligament reconstruction *Jan Gillquist* 1187
- 2.5.15 Surgical techniques of anterior cruciate ligament reconstruction *Leo Pinczewski, Jonathan Webb, and Ian Corry* 1194
- 2.5.16 Arthroscopic anterior cruciate ligament reconstruction with a bone-patellar tendon graft using a 'no-hardware' technique *Hans H. Paessler and Michael E. Hantes* 1199
- 2.5.17 Ethics and sport in relation to the anterior cruciate ligament *S.R. Bollen* 1207
- 2.5.18 The posterior cruciate ligament *Konsei Shino* 1209
- 2.5.19 Unicompartamental knee replacement *Lars Weidenhielm* 1212
- 2.6 Ankle and foot
- 2.6.1 Ankle arthritis *Paul H. Cooke* 1217
- 2.6.2 Disorders of the first ray *D. Beaman* 1225
- 2.6.3 Disorders of the subtalar joint and tarsus *Michael E. Brage* 1236
- 2.6.4 The diabetic foot *Robert B. Anderson and W. Hodges Davis* 1251
- 2.6.5 Orthoses of the foot and leg *Donald G. Shurr and John J. Kamp* 1262
- 2.6.6 The foot in neurologic disorders *R. Dehne* 1268
- 2.6.7 The foot in rheumatoid arthritis *Jeffrey T. Brodie and Todd A. Kile* 1279
- 2.6.8 Deformities of the lesser toes *Richard J. Claridge* 1290
- 2.6.9 Tendon and ligament disorders of the foot and ankle *A. Amendola and Darren Drosdewech* 1297
- 2.7 General disorders
- 2.7.1 Biochemistry of the skeleton *Roger Smith* 1315
- 2.7.2 Osteoporosis *Roger Smith* 1324
- 2.7.3 Osteomalacia *Roger Smith* 1333
- 2.7.4 Paget's disease *Roger Smith* 1341
- 2.7.5 Parathyroids and the skeleton *Roger Smith* 1344
- 2.7.6 Cancer and the skeleton *Roger Smith* 1350
- 2.7.7 The osteopetroses *Roger Smith* 1353
- 2.7.8 Bone disease and enzyme defects *Roger Smith* 1357
- 2.7.9 Ectopic mineralization *Roger Smith* 1362
- 2.7.10 Rheumatoid arthritis *Paul Wordsworth* 1369
- 2.7.11 Crystal arthropathies *Lyn Williamson and Paul Wordsworth* 1376
- 2.7.12 Spondyloarthropathies *Paul Wordsworth* 1383
- 2.7.13 Inflammatory connective tissue disease and vasculitis *Margaret Callan and Paul Wordsworth* 1390
- 2.7.14 Algodystrophy *Roger M. Atkins* 1400
- 2.7.15 Osteoarthritis *Jai Chitnavis and Andrew Carr* 1406
- 2.7.16 Hematogenous osteomyelitis *W.J. Gillespie* 1421
- 2.7.17 Chronic long-bone osteomyelitis *Jon T. Mader, John H. Mader, Michael W. Cripps, and Jason H. Calhoun* 1431
- 2.7.18 Septic arthritis *Sydney Nade* 1437
- 2.7.19 Prosthetic joint infection *Bridget L. Atkins and Anthony R. Berendt* 1443
- 2.7.20 Hemophilia *W.J. Ribbans and Paul Giangrande* 1455
- 2.7.21 Neuromuscular disorders *T.N. Theologis* 1470
- 2.7.22 Neurofibromatosis *Susan M. Huson* 1480
- 2.7.23 Neuromuscular and skeletal manifestations of neurofibromatosis *Jeremy Fairbank* 1483
- 2.7.24 Amputations and prostheses *J. Dougall Morrison* 1496
- 2.7.25 Poliomyelitis *Benjamin Joseph and S. Rajasekaran* 1511
- 2.7.26 Tuberculosis of bone and joints *S. Rajasekaran and J. Dheenadhayala* 1532
- 2.7.27 Spinal tuberculosis *S. Rajasekaran and T.K. Shanmugasundaram* 1545
- 2.7.28 Miscellaneous orthopedic infections *S. Rajasekaran and Ajoy Prasad Shetty* 1561
- Index [1]**
- Volume 3**
- Part 3 Trauma**
- 3.1 Fracture classification *Thomas A. DeCoster* 1575
- 3.2 Measurement of outcome in orthopedic trauma *B.C. Twaddle and M.F. Swiontkowski* 1582

- 3.3 Complications of fractures *Martin Gargan and Mark Jackson* 1590
- 3.4 Management of the multiply injured patient *Gregoris Kambouroglou and Peter Worlock* 1603
- 3.5 Orthopedic approach to the multiply injured patient *P.B.M. Thomas* 1608
- 3.6 Principles of wartime surgery *Matthew S. Slater and Donald D. Trunkey* 1616
- 3.7 Outcome after blast, missile, and gunshot wounds *Jonathan Clasper* 1629
- 3.8 The management of open fractures *Andrew S. Cole and Martin A. McNally* 1636
- 3.9 Soft-tissue coverage *Chris Caddy and D.G. Dujon* 1652
- 3.10 Combined vascular and orthopedic injuries *Aires A.B. Barros D'Sa* 1664
- 3.11 Limb salvage versus amputation *Gregory M. Georgiadis* 1681
- 3.12 Principles of closed treatment of fractures *John Connolly* 1691
- 3.13 Principles of plate and screw osteosynthesis *Kaj Klaue* 1697
- 3.14 Principles of intramedullary nailing *Laura Prokuski* 1711
- 3.15 Principles of monolateral external fixation *F. Lavini, L. Renzi Brevio, and F. Cavina Pratesi* 1717
- 3.16 Principles of circular external fixation in trauma *Martin A. McNally and Maurizio A. Catagni* 1736
- 3.17 Absorbable implants for fracture fixation *O.M. Böstman* 1749
- 3.18 Stress fractures *David Tearse, Joseph A. Buckwalter, J. L. Marsh, and Eric A. Brandser* 1759
- 3.19 Pathologic fractures *Christopher W. Oliver and James Christie* 1766
- 3.20 Injuries to muscle–tendon units *S.D. Deo* 1772
- 3.21 The use of antibiotics in fracture care *C.L.M.H. Gibbons and Keith Willett* 1791
- 3.22 Dislocations and joint injuries in the hand *Peter Burge* 1800
- 3.23 Flexor tendon injuries *David Elliott* 1811
- 3.24 Extensor tendon injuries in the hand and wrist *David M. Evans* 1816
- 3.25 Infections, burns, injection injuries, and compartment syndromes of the hand *A.J. Heywood* 1826
- 3.26 Principles of open hand injuries *Edward J. Harvey and L. Scott Levin* 1839
- 3.27 Nerve injuries *Grey Giddens* 1848
- 3.28 Replantation *W.A. Morrison and D.D. Theile* 1860
- 3.29 Metacarpal and phalangeal fractures *T.R.C. Davis* 1873
- 3.30 Scaphoid fractures *Joseph Dias* 1890
- 3.31 Instabilities of the carpus *Peter M. Murray and James H. Dobyns* 1909
- 3.32 Injuries of the distal radio-ulnar joint *Martin I. Boyer and Terry S. Axelrod* 1929
- 3.33 Fractures of the distal radius *Margaret M. McQueen* 1943
- 3.34 Forearm fractures *Ronald W. Lindsey, Theodore Miclau, and Christian Foglar* 1955
- 3.35 Olecranon, coronoid, and radial head fractures, and elbow dislocations *John R. Williams* 1969
- 3.36 Distal humeral fractures *John R. Williams and Brian Holdsworth* 1981
- 3.37 Humeral shaft fractures *John Owen* 1991
- 3.38 Proximal humeral fractures *R. Szyszkowitz, G. Schippinger, and F.J. Seibert* 2001
- 3.39 Dislocations about the shoulder girdle, scapular fractures, and clavicle fractures *Simon Lambert and Ralph Hertel* 2029
- 3.40 Imaging in spinal trauma *E. McNally* 2057
- 3.41 Emergency management of the traumatized cervical spine *Jens R. Chapman, Sohail K. Mirza, and Mark A. Konodi* 2068
- 3.42 Upper cervical spine trauma *Paul A. Anderson* 2082
- 3.43 Lower cervical spine trauma *Charles R. Clark and Robert A. Hart* 2102
- 3.44 Whiplash injuries *Shahid Khan, Martin Gargan, and Gordon Bannister* 2114
- 3.45 Thoracic fracture *James Wilson-MacDonald* 2120
- 3.46 Thoracolumbar, lumbar, and sacral fractures *Ian W. Nelson* 2127
- 3.47 Post-traumatic spinal reconstruction *S.K. Tucker and B.A. Taylor* 2137
- 3.48 Rehabilitation of spinal cord injuries *B. Gardner* 2143

- 3.49 Pelvic ring fractures: assessment, associated injuries, and acute management *Horst Rieger* 2155
- 3.50 Pelvic ring injuries: definitive management *Barry L. Riemer* 2165
- 3.51 Fractures of the acetabulum: classification and radiographic assessment *Steven A. Olson and David C. Templeman* 2172
- 3.52 Management of acetabular fractures *Berton R. Moed and Mark J. Spoonamore* 2182
- 3.53 Dislocations of the hip and femoral head fractures *Tony Pohl* 2202
- 3.54 Femoral neck fractures *Karl-Göran Thorngren* 2216
- 3.55 Trochanteric and subtrochanteric fractures *Martyn J. Parker* 2228
- 3.56 Femur shaft fractures *Thomas A. DeCoster and Darren R. Swenson* 2240
- 3.57 Supracondylar fractures of the femur *Olarewaju J.O. Oladipo and George P. Whitelaw Jr* 2253
- 3.58 Patella fractures and dislocations *James Martin and J. L. Marsh* 2265
- 3.59 Tibial plateau fractures *Dennis J. Davin and Paul J. Duwelius* 2277
- 3.60 Tibial shaft fractures *J. Tracy Watson* 2292
- 3.61 Tibial plafond fractures *T. Williams and J. L. Marsh* 2310
- 3.62 Ankle fracture *R. Handley* 2322
- 3.63 Fractures of the talus and peritalar dislocations *James B. Carr* 2337
- 3.64 Fractures of the calcaneum *Roger M. Atkins* 2353
- 3.65 Forefoot fractures and dislocations *James B. Holmes* 2375
- 3.66 Traumatic bone infection *E.E.G. (Charles) Lautenbach* 2390
- 3.67 Post-traumatic segmental bone defects *Julian R. Flynn* 2403
- 3.68 Compartment syndrome *Christopher Bulstrode* 2412
- Part 4 Pediatric orthopedics**
- 4.1 Osteomyelitis and septic arthritis in children *John M. Flynn and John P. Dormans* 2419
- 4.2 Juvenile arthritis
 - 4.2.1 Medical aspects of juvenile idiopathic arthritis *Sally E. Edmonds* 2427
 - 4.2.2 The surgical management of juvenile arthritis *John H. Wedge and Earl R. Bogoch* 2433
- 4.3 Cerebral palsy
 - 4.3.1 The causes of cerebral palsy *L. Rosenbloom* 2447
 - 4.3.2 Orthopedic management in cerebral palsy: lower limb *T.N. Theologis* 2452
 - 4.3.3 Orthopedic management in cerebral palsy: upper limb *Mark Hoffer* 2464
 - 4.3.4 Treatment of the child with total body involvement due to cerebral palsy *Michael D. Sussman and Seref Aktas* 2467
- 4.4 The orthopedic management of myelomeningocele *Nigel S. Broughton* 2479
- 4.5 Arthrogyrosis multiplex congenita *J.A. Fixsen* 2486
- 4.6 Malformations of the upper limbs
 - 4.6.1 Congenital upper-limb anomalies: incidence, epidemiology, developmental biology, and classification *Henk Giele* 2490
 - 4.6.2 Congenital anomalies of the shoulder and elbow *S. Patel* 2493
 - 4.6.3 Congenital hand surgery *P.J. Smith and A.O. Grobbelaar* 2499
- 4.7 Neurologic aspects of spinal disorders in children *Peter Richards and Gerardine Quaghebeur* 2530
- 4.8 Common disorders of the lower limb *Om Lahoti* 2536
- 4.9 Developmental dysplasia of the hip *N.M.P. Clarke* 2543
- 4.10 Legg–Calvé–Perthes disease *A. Catterall* 2549
- 4.11 Slipped capital femoral epiphysis *Malcolm Macnicol* 2564
- 4.12 Coxa vara *George C. Bennet* 2571
- 4.13 Congenital dislocation of the knee *K. Parsch* 2574
- 4.14 Blount's disease *Shawn Tavares* 2577
- 4.15 Congenital clubfoot *Alvin H. Crawford* 2580
- 4.16 The foot in childhood *Ian G. Winson and Patricia E. Allen* 2582
- 4.17 Leg-length inequality in children and young adults *John Kenwright* 2601
- 4.18 Congenital pseudarthrosis in the child *Franz Grill* 2611
- 4.19 Management of the limb-deficient child *J. Dougall Morrison* 2617

Part 5 Pediatric trauma

- 5.1 Musculoskeletal injuries in children *T.N. Theologis* 2629
- 5.2 Physeal injuries *Deborah M. Eastwood* 2642
- 5.3 Fractures of the spine in children *James Wilson-MacDonald* 2651
- 5.4 Injuries around the shoulder in children *Jonathan Clasper* 2661
- 5.5 Fractures about the elbow in children *William C. Warner Jr and James H. Beaty* 2666
- 5.6 Fractures and dislocations about the pediatric forearm *Kenneth J. Noonan and Charles T. Price* 2682
- 5.7 Pediatric hand trauma *Henk Giele* 2695
- 5.8 Injuries of the pelvis and hip in children *Jon D. Hop and J. L. Marsh* 2706
- 5.9 Injuries of the femur and patella in children *Kenneth J. Noonan* 2719
- 5.10 Injuries of the tibia, fibula, and ankle in children *Kathryn E. Cramer* 2731
- 5.11 Foot injuries in children *Deborah M. Eastwood* 2743
- 5.12 Sports injuries in children and adolescents *Carl L. Stanitski* 2751
- 5.13 Brachial plexus injuries *Grey Giddens* 2764
