

## Journal of World Energy Law & Business

General Editor: **Peter Roberts**

**Official journal of the Association of International Petroleum Negotiators**

*"Each issue of JWELB offers articles of immediate interest by leading energy experts from industry, the legal profession, and universities around the world. A must read for frontline negotiators, business development managers, consultants, and academics who want to better understand the international energy industry - past, present and future."*

John P. Bowman, King & Spalding LLP

*Journal of World Energy Law & Business* is the official journal of the AIPN. It is a peer-reviewed journal of record providing objective coverage of relevant issues. It provides high-quality articles that combine academic excellence with professional relevance and benefits from the expertise of a board of internationally respected academic, lawyers and other energy professionals.

The journal publishes articles on legal, business and policy issues in the international energy industry. This includes upstream oil and gas transactions, finance, taxation, regulation, dispute management, alternative energy resources, energy policy and security and international energy organizations.

The journal will be of interest to legal practitioners, government and international agency officials, experts from professional, industry and non-governmental associations, and academics specialising in energy-related issues
