AN INTRODUCTION TO THE PHILOSOPHY OF RELIGION THIRD EDITION

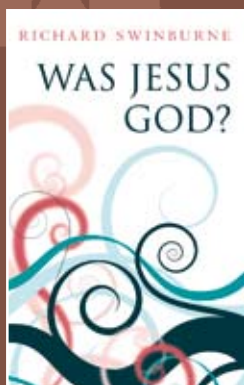

Edited by Brian Davies, Professor of Philosophy, Fordham University, New York

What does belief in God amount to? Can we reasonably believe in God's existence without argument or evidence? Can God's existence be proved? Is there life after death?

In this book, Brian Davies provides a critical examination of some fundamental questions posed by religious belief. Highly accessible and covering all the key elements of a course in the philosophy of religion, the new edition of this highly successful textbook will once again prove the ideal introduction. It is designed to complement Brian Davies' *Philosophy of Religion*, but can also be used as a stand-alone introduction.

WAS JESUS GOD?

Richard Swinburne, Emeritus Nolloth Professor of the Philosophy of the Christian Religion, University of Oxford

Richard Swinburne argues compellingly that if there is a God, then the main doctrines which the Christian Church teaches about God are very probably true. In particular, he shows that there is strong philosophical support for the belief that Jesus, while remaining God, acquired a human nature and lived on earth for thirty years as a human being.

Essential reading for anyone with an interest in the Christian religion, including general readers and students of philosophy and religion at all levels.
