

The Globalization of World Politics

An Introduction to International Relations

Edited by John Baylis, Pro-Vice Chancellor and Professor in the Department of Politics and International Relations, University of Wales, Swansea, Steve Smith, Vice-Chancellor and Professor of International Politics, University of Exeter, and Patricia Owens, Senior Lecturer in International Politics, University of London, Queen Mary

New to this edition:

- Responding to the current issues in the field, this fourth edition includes three new chapters on the changing nature of war, human security and international ethics.
- New 400 word cases have been fully integrated within the text to allow students to see theory applied in practice and to base their learning in a relevant, real-world context.
- Includes more examples from the developing world, encouraging students to reflect on how people in other areas of the world think about politics.
- Contains a completely revised and updated chapter on gender issues, written by leading expert in the field, J. Ann Tickner.
- Chapters have been made more succinct to ensure a fresh and focused approach to each topic.

The Globalization of World Politics offers a first-class introduction to IR, boasting an impressive line-up of international contributors who are experts in their field.

Now in its fourth edition, this international best seller has been fully revised and updated in light of recent developments in world politics. It is perfect for students coming to the subject for the first time, and will be invaluable throughout their IR degree.

J. E. Spence, OBE,
 Kings College London

Boxes

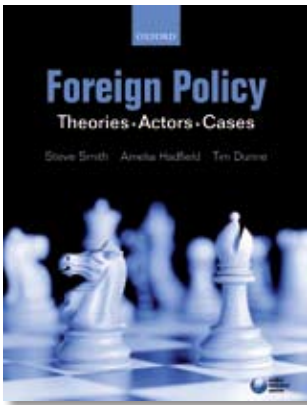

A number of topics benefit from further explanation or exploration in a way that does not disrupt the flow of the main text. Throughout the book boxes provide students with extra information on particular topics to complement their understanding of the main chapter text.

Case Study boxes demonstrate how political ideas, concepts, and issues manifest in the real world.

Key Points

Each main chapter section ends with a set of Key Points that summarize the most important arguments developed within that chapter topic.

Foreign Policy

Theories, Actors, Cases

Edited by Steve Smith, Professor of International Studies and Vice-Chancellor of the University of Exeter, Amelia Hadfield, Lecturer in European International Relations at the University of Kent, and Tim Dunne, Professor of International Relations, University of Exeter

- The only textbook to cover all aspects of foreign policy, making this the perfect book for modules on this subject.
- Provides a unique balance between the theoretical and practical sides of foreign policy, with a dedicated nine-chapter case studies section, showing students how foreign policy works in practice.
- The contributors are a mixture of academics and practitioners, ensuring that students can take a rigorous theoretical approach, as well as engaging with the policy process.

This major new textbook introduces students to the dynamic and evolving field of foreign policy. The book opens with a consideration of different theoretical and historical perspectives; it then focuses on a range of actors and the goals they seek to advance; and it ends with a series of case studies involving issues and crises relating to a wide range of different countries. *Foreign Policy* is timely given the growing significance of foreign policy in the post-9/11 world.

US Foreign Policy

Edited by Michael Cox, Professor of International Relations, London School of Economics, and Doug Stokes, Senior Lecturer in International Relations, University of Kent at Canterbury

- The only textbook to include a section on US foreign policy towards different regions, allowing students to analyse US foreign policy in practice.
- Provides significantly more comprehensive coverage than competing texts, allowing instructors to customise the text for any module no matter what the emphasis or perspective.
- Draws together a wide range of leading international scholars from inside and outside the US, offering students a broad range of perspectives.
- Excellent learning features throughout to support student learning, including readers' guides, key points, questions, guide to further reading, web links, boxes and glossary.

This major new textbook is the most comprehensive introduction to US foreign policy available. Bringing together a number of the world's leading experts, the text deals with the rise of America, US foreign policy during and after the Cold War, and the complex issues facing the US since September 11th.

The book is divided into five sections: historical contexts; institutions and processes; policies of the US towards different areas; and issues and debates and America and the world after 9/11.

Strategy in the Contemporary World An Introduction to Strategic Studies

Edited by John Baylis, Pro-Vice Chancellor and Professor in the Department of Politics and International Relations at the University of Wales, Swansea, James J. Wirtz, Professor of National Security Affairs at the Naval Postgraduate School, Monterey, California, Colin S. Gray, Professor of International Politics and Strategic Studies at the University of Reading, and Eliot Cohen, Professor and Director of the Philip Merrill Center for Strategic Studies at Johns Hopkins University

- Provides a significantly more comprehensive analysis of strategic studies than competing texts, allowing instructors to customise the text for any module.
- The second edition reflects the increased need to address issues of war and peace, particularly terrorism, irregular warfare, weapons of mass destruction and the revolution in military affairs.

New to this edition:

- Seven new chapters on the evolution of modern warfare; culture and national security policy; geography and strategy; combating terrorism and transnational organized crime; nuclear weapons in the 21st century; Iraq, Afghanistan and American military transformation; and homeland security (9/11).

The second edition of this textbook has been completely revised and updated in light of 9/11. In the aftermath of the attacks, there has been an increased need to address issues of war and peace, particularly terrorism, irregular warfare, the spread of weapons of mass destruction and the revolution in military affairs.

Bryan Mabee, Queen Mary, University of London

Contemporary Security Studies

Edited by Alan Collins, Senior Lecturer in International Relations at the Department of Politics and International Relations, University of Wales, Swansea

- Provides significantly more comprehensive coverage than competing books, allowing instructors to customise the text for any module no matter what the emphasis or perspective.
- Assumes no background knowledge, making it accessible to beginning students.
- Carefully edited contributions from international experts, providing students with authoritative and accessible content.

This textbook brings together key scholars to introduce students to the fast-evolving field of security studies. The book is divided into three sections: differing approaches to the study of security; the broadening and deepening of security; and a range of traditional and non-traditional issues that have emerged on the security agenda.

International Relations Theories Discipline and Diversity

Edited by Tim Dunne, Professor of International Relations, University of Exeter, Milja Kurki, Lecturer in International Relations in the Department of Politics, University of Exeter, and Steve Smith, University Vice-Chancellor and Professor of International Relations at the Department of Politics, University of Exeter

- Broad coverage of both conventional and critical approaches to world politics, allowing instructors to customise the text for any module no matter what the emphasis or perspective.
- Recognises the value of showing the application of theory to concrete political problems: each chapter includes a case study section to facilitate class discussion and debate.
- Includes high quality chapters that rigorously follow the same format, by leading authors from diverse academic communities, providing students with authoritative and accessible content.

This cutting-edge textbook is the most comprehensive introduction to international relations theory available. It argues that theory is central to explaining the dynamics of world politics, and includes a wide variety of theoretical positions, from the historically dominant traditions to powerful critical voices since the 1980s.

International Relations Since 1945

A Global History

John W. Young, Chair of International History, University of Nottingham, and John Kent, Reader in International Relations, LSE

International Relations Since 1945 is a one-volume authoritative historical analysis of international relations during the Cold War and its aftermath.

It both describes and interprets events since 1945 for an undergraduate audience. It explores how the Cold War impacted upon world politics as a whole, but also deals with such important regional problems as the Middle East, the development of European integration and the end of the European empires in Africa and Asia.

International Relations of the Middle East

Edited by Louise Fawcett, Fellow and Lecturer in Politics at St Catherine's College, Oxford

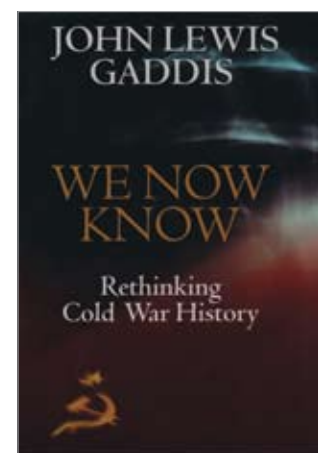

In this book, leading scholars of the Middle East and international relations present a balanced and comprehensive analysis of the international politics of the region.

While offering an historical framework, and up-to-date analysis of contemporary events, the book also introduces key theories and concepts from the study of international relations and applies them to a Middle Eastern context to help explain major currents and developments.
