

Welcome to the Cold Tom screensaver! Please follow the instructions to download and install the screensaver.

NB. This screensaver will only run on Windows 95/98/2000/NT/XP, and you must make sure you have administrator access to install items to the \Windows or \Winnt folder on NT 4.0 or Windows 2000.

1. Click the link on the Cold Tom website to download the screensaver.
2. Choose to save the file to a directory on your computer.
3. When the file has fully downloaded, find it on your hard drive (using Windows Explorer or My Computer) and double click the file (it's called ColdTom.exe)
4. A warning will appear telling you what you are about to do. Read it and click **OK**.
5. A menu will appear called Self-Extracting Archive. This will extract the five files you need for the screensaver to a directory of your choice. The default directory is C:\TEMP\
6. Click the **Extract** button
7. You will then be told the operation has been successfully completed. Click **OK**.
8. Using Windows Explorer or My Computer, select the directory in which the file was saved (C:\TEMP\ was the default directory).
9. **Right click** on the ColdTom.scr file. Select **Install**.
10. The Display Properties window will appear confirming the file has been installed. Click **OK** and enjoy!
