RICHARD I. LINDLEY

Professor of Geriatric Medicine
Moran Foundation for Older Australians
University of Sydney
Australia

OXFORD
UNIVERSITY PRESS

OXFORD

UNIVERSITY PRESS

Great Clarendon Street, Oxford OX2 6DP

Oxford University Press is a department of the University of Oxford.

It furthers the University's objective of excellence in research, scholarship, and education by publishing worldwide in

Oxford New York

Auckland Cape Town Dar es Salaam Hong Kong Karachi

Kuala Lumpur Madrid Melbourne Mexico City Nairobi

New Delhi Shanghai Taipei Toronto

With offices in

Argentina Austria Brazil Chile Czech Republic France Greece

Guatemala Hungary Italy Japan Poland Portugal Singapore

South Korea Switzerland Thailand Turkey Ukraine Vietnam

Oxford is a registered trade mark of Oxford University Press
in the UK and in certain other countries

Contents

Acknowledgements	ix
1 What is stroke?	1
2 How common is stroke?	11
3 Who gets strokes?	19
4 The causes of stroke	35
5 What can be done for people who have a stroke?	47
6 Rehabilitation after stroke	67
7 Living after stroke	95
8 How do you prevent stroke?	105
Glossary	123
Appendix	127
Index	129

Acknowledgements

I would like to thank my colleagues at the University of Sydney and Sydney West Area Health Service who granted me a 2-month sabbatical in order to write this book, and my fellow geriatricians at Westmead Hospital who covered my clinical work during my absence. Many people contributed to the success of my sabbatical, including Surat Boonyakarnkul and his colleagues at the Thai Stroke Society, Derick Wade, Alastair Buchan, Peter Rothwell, Veronica Murray, Bent Indredavik, Peter Sandercock, Joanna Wardlaw, Charles Warlow, Martin Dennis, Jane Collier, Ian Jordan, Mark Cousins, Rohan Grimley, Genevieve Freys, Paul Chmielnik, and my parents. My current post at the University of Sydney is supported by the Moran Foundation for Older Australians and an infrastructure grant from NSW Health.

Richard I. Lindley
