

A course full of surprises! ...

Surprise! is a six-level series for children learning English from Primary 1 to Primary 6.

Based on sound educational practice, extensive research, and the guidelines of the Common European Framework, *Surprise!* provides pupils with a very positive experience of learning English. All the activities, songs, chants, stories, cross-curricular lessons, games, craft activities, and self-assessment materials have been carefully chosen to make sure that children have a motivating learning experience, that is both fun and meaningful.

What's special about *Surprise!*?

Surprise! will captivate Primary pupils with its imaginative concept, exciting stories, and interesting topics.

Surprise! makes good storytelling easy. The series offers a wide variety of story genres, resources for storytelling, and practical tips, with the result that learning is interesting and meaningful. Each level includes six beautifully illustrated stories from different genres: from traditional fables and fairy tales to modern-day action adventures, from fantasy to true life. All of the stories have been specially chosen to appeal the imagination and interests of children.

Surprise! systematically develops children's language skills and offers opportunities for frequent review. At 1st cycle, the main aim is to practise listening and speaking skills along with a carefully paced introduction to reading and writing. In 2nd cycle, the course continues working on the four skills necessary to learning a language and, in particular, provides opportunities for personalisation in reading and writing. In 3rd cycle, the series helps the children to become autonomous students, developing their ability to understand, revise, and correct their own work.

Surprise! provides a wide variety of activities and materials to cater for the different learning styles of each individual in the English classroom.
