Library Journal

The Grove Encyclopedia of Classical Art and Architecture is the most current and comprehensive reference resource for the visual arts of the Classical period. It features an abundance of in-depth articles on this field of enduring importance – from biographies to thematic entries on architecture, ceramics, metalwork, mosaics, painting and sculpture. The *Encyclopedia* provides fascinating and authoritative art historical and cultural information about art forms, artists, rulers, philosophers, architecture, renowned works of art, archaeological sites, and stylistic developments.

Encompassing over four thousand years of artistry and innovation, the *Encyclopedia* spans every art form, medium, and civilization, from Cycladic, Minoan, Helladic, and Etruscan art to the fall of the Roman Empire. Drawing upon the unparalleled scholarship in the 34-volume print edition of *The Dictionary of Art*, and adding over 100 newly commissioned entries on recent archaeological discoveries, a fully updated bibliography and over 400 illustrations, this publication sets a new standard in Classical studies.
