Combining excellence with innovation, Oxford Scholarship Online is a unique and invaluable tool for both teaching and research.

The most important scholarly books that Oxford University Press publishes in the humanities and social sciences are now accessible online for a one-time purchase fee or by annual subscription.

Subject modules are available in Philosophy, Religion, Political Science, and Economics and Finance.

Special features make research easier and results more relevant.

Oxford has commissioned keywords, and book and chapter abstracts for each work. The vast majority are written by the original author, and are available alongside journal abstracts through a variety of online services.

Reference linking from bibliographies and footnotes to available online content - such as journals from a wide range of publishers - help scholars and students discover new resources.

This means that classic works of scholarship, together with newly-published works, are more accessible than ever before, making Oxford Scholarship Online a unique and invaluable research tool for scholars and students alike.

FINALIST, BEST ONLINE REFERENCE SERVICE
- SIIA Codie Awards 2005

A vast and rapidly-expanding online research library ...

The full text of over 1000 carefully selected titles - more than 250,000 book pages and in excess of 100 million words - is already available in Oxford Scholarship Online. What's more, at least 200 new books are added each year.

Comprehensive coverage in four key disciplines ...

Oxford Scholarship Online includes an impressive list of books in the following disciplines: Philosophy; Religion; Political Science; and Economics and Finance. Full title lists are available at www.oxfordscholarship.com.

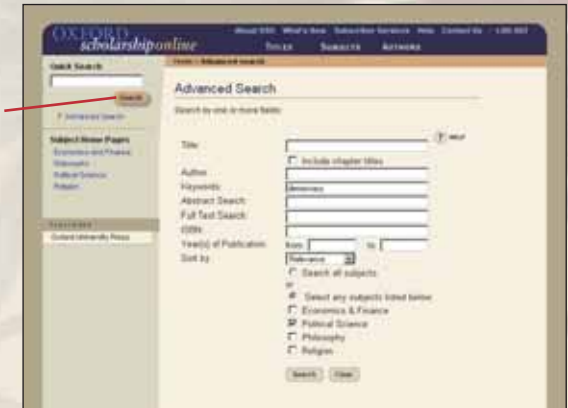

Oxford - the stamp of excellence ...

Oxford has an unrivalled international reputation for the quality of its book and journal publishing programme, and its commitment to excellence. Disseminating the very best scholarly work is a key part of the mission, and each and every book has to be approved by a board of leading academics from Oxford University (known as the Delegates).

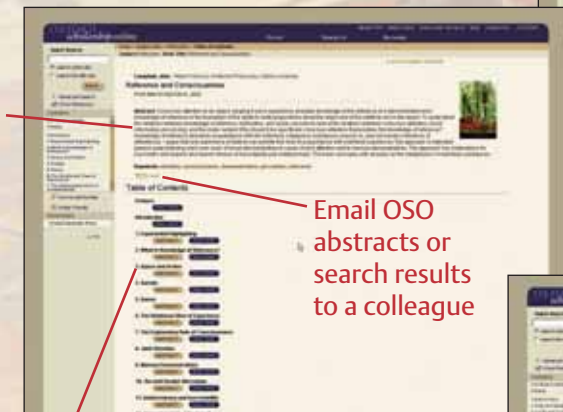

'The quality features, sophisticated search functionality, and additional online content that OUP is providing are numerous, and the content speaks for itself. It's a combination that works well.'

Library Journal's netConnect

Cross-search the full text of over 1000 books

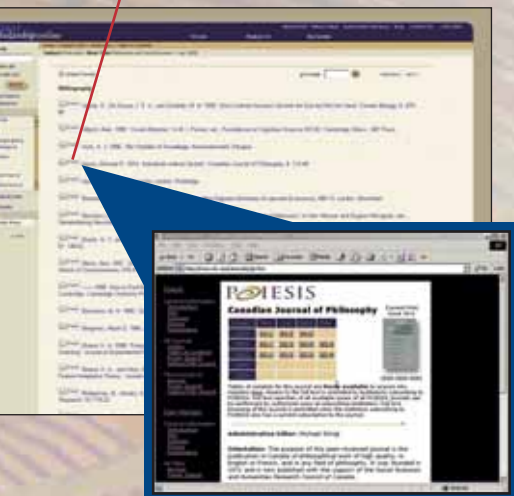

Abstracts and keywords at book and chapter level

Email OSO abstracts or search results to a colleague

Link to individual chapters from online course packs and reading lists

Bibliographic links take you direct to other online resources

New and unique research possibilities ...

All abstracts and keywords are available alongside journals' abstracts through a wide variety of online services so that scholars and students can discover and retrieve information about relevant book content when they search online. The data has been designed according to open standards in order to facilitate linking from references in footnotes and bibliographies to other online content.

Excellent functionality ...

Oxford Scholarship Online has been carefully designed to enable users to find relevant information fast. A whole host of search options is available including full text, subject, keyword, author, title, and publication date or range. Users can email abstracts and search results, and a print-friendly format means that output is easy to read.

An invaluable teaching resource ...

Digital Object Identifiers (DOIs) at book and chapter level make Oxford Scholarship Online *'ideal for online course packs and reading lists.'* (Library Journal) and, with remote access available, the service brings high quality resources within easy reach of students wherever they are.

Promoting usage and access ...

MARC21 and ONIX records are available free of charge to aid cataloguing. The site is also OpenURL and SFX-compliant.

Full range of subscriber services ...

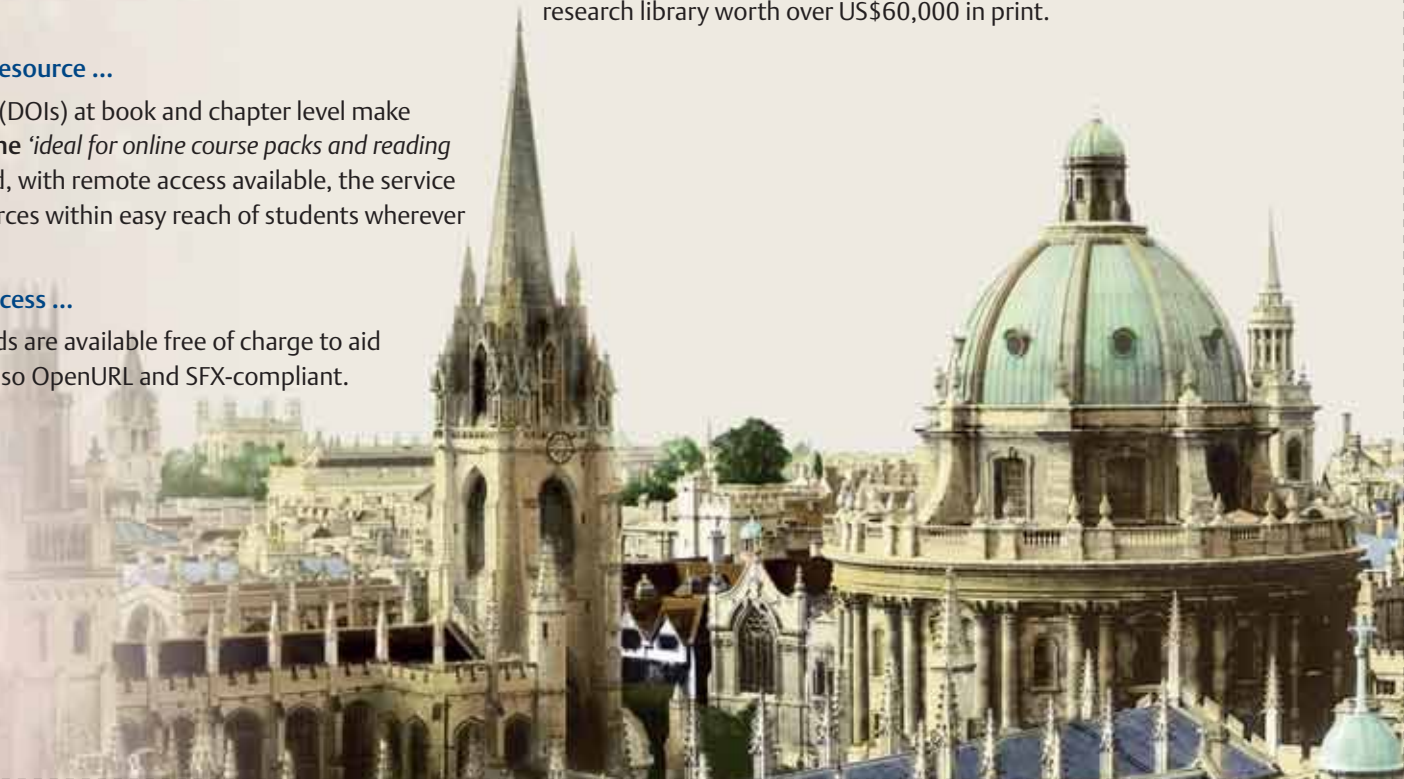

Comprehensive usage statistics can be accessed online at any time, and excellent customer and technical support is available. Publicity material is also available free of charge.

'Help [pages are] available, but the system is so well designed, it is doubtful users will need it.' (Library Journal)

Flexible pricing and access models ...

Libraries can choose to purchase or subscribe to either the full collection, or to individual subject modules. For a one-time purchase fee, libraries benefit from unlimited user access in perpetuity. Hosting services are available for a modest annual fee. Subscriptions are also available on an unlimited or concurrent user basis, and offer a highly cost-effective means of access to a vast research library worth over US\$60,000 in print.

New print-friendly format

'For ease of use, user-friendly design, and quality content, Oxford Scholarship Online is among the best ...' Library Journal
