Unit 1 Physical geography

Section A

1 The restless earth 6

1.1	Unstable Earth	8
1.2	Plate margins	10
1.3	Landforms at plate margins	12
1.4	Using fold mountains – the Himalayas	14
1.5	Volcanic eruption – Montserrat	16
1.6	Supervolcanoes	18
1.7	Earthquake!	20
1.8	Two countries, two earthquakes – 1	22
1.9	Two countries, two earthquakes – 2	24
1.10	Tsunami!	26

2 Rocks, resources and scenery 28

2.1	A matter of time	30
2.2	Rock groups	32
2.3	Rocks and weathering	34
2.4	Landforms and landscapes – 1	36
2.5	Landforms and landscapes – 2	38
2.6	Rocks and their uses – 1	40
2.7	Rocks and their uses – 2	42
2.8	Quarrying in the Yorkshire Dales	44
2.9	Quarrying – reducing the impact	46

3 Challenge of weather and climate 48

3.1	The climate of the UK	50
3.2	Rain and weather systems – 1	52
3.3	Rain and weather systems – 2	54
3.4	Extreme weather in the UK	56
3.5	One extreme event	58
3.6	Climate change	60
3.7	Climate change – the consequences	62
3.8	Climate change – responses to the threat	64
3.9	Hurricanes	66
3.10	Extreme hurricanes – 1	68
3.11	Extreme hurricanes – 2	70

4 Living world 72

4.1	Introducing ecosystems	74
4.2	The global distribution of ecosystems	76
4.3	Three different ecosystems	78
4.4	Epping Forest	80
4.5	Managing temperate deciduous forests	82
4.6	The Atlantic Forest	84
4.7	Deforestation and management in tropical rainforests	86
4.8	Managing the Atlantic Forest	88
4.9	The Australian outback	90
4.10	The Sahara Desert	92

Section B

5 Water on the land 94

5.1	River valleys in their upper course	96
5.2	River valleys in their middle course	98
5.3	River valleys in their lower course	100
5.4	What affects a river's discharge?	102
5.5	The 2009 Cumbrian floods – 1	104
5.6	The 2009 Cumbrian floods – 2	106
5.7	The 2008 Kosi River flood in Bihar, India	108
5.8	Managing river flooding	110
5.9	Managing our water supplies – 1	112
5.10	Managing our water supplies – 2	114

6 Ice on the land 116

6.1	Introducing ice	118
6.2	Glaciers – advance and retreat	120
6.3	Glaciers at work – 1	122
6.4	Glaciers at work – 2	124
6.5	Glaciers at work – 3	126
6.6	Glacial landforms on maps	128
6.7	Tourism in the Alps	130
6.8	Is tourism good for the Alps?	132
6.9	Avalanche!	134
6.10	Climate change and the Alps	136

Contents

7 The coastal zone 138

7.1	Waves	140
7.2	Coastal erosion	142
7.3	Coastal transport	144
7.4	Coastal deposition	146
7.5	Collapsing cliffs	148
7.6	Cliff collapse at Christchurch Bay	150
7.7	Rising sea levels in the Maldives	152
7.8	Managing the coast – 1	154
7.9	Managing the coast – 2	156
7.10	Coastal Habitats – Studland Bay Nature Reserve	158

Unit 2 Human geography

Section A

8 Population change 160

8.1	Human population growth	162
8.2	Why is the human population growing?	164
8.3	Changing population structures	166
8.4	Rapid population growth	168
8.5	China's population policy	170
8.6	Population control – Kerala	172
8.7	The UK's ageing population	174
8.8	Coping with an ageing population	176
8.9	Migration – from Poland to the UK	178
8.10	Migration – impacts and refugees	180

9 Changing urban environments 182

9.1	Urbanisation	184
9.2	Inside cities	186
9.3	Urban issues 1 – richer world	188
9.4	Urban issues 2 – richer world	190
9.5	Urban issues 3 – richer world	192
9.6	Rapid urbanisation – 1	194
9.7	Rapid urbanisation – 2	196
9.8	Rapid urbanisation – 3	198
9.9	Making urban living sustainable – 1	200
9.10	Making urban living sustainable – 2	202

10 Changing rural environments 204

10.1	Under pressure – 1	206
10.2	Under pressure – 2	208
10.3	Changing rural areas: East Anglia – 1	210
10.4	Changing rural areas: East Anglia – 2	212
10.5	Making rural living sustainable – 1	214
10.6	Making rural living sustainable – 2	216
10.7	Farming in East Anglia – 1	218
10.8	Farming in East Anglia – 2	220
10.9	Change and conflict	222
10.10	Irrigation and migration	224

Section B

11 The development gap 226

11.1	Differences in development	228
11.2	Dividing up the world	230
11.3	Standard of living and quality of life	232
11.4	Widening the gap	234
11.5	Natural hazards and the development gap	236
11.6	Trade and the development gap	238
11.7	Reducing the gap 1 – trade	240
11.8	Reducing the gap 2 – debt	242
11.9	Reducing the gap 3 – aid	244
11.10	Bridging the EU development gap	246

12 Globalisation 248

12.1	Twenty-first century world	250
12.2	Global connections	252
12.3	Global manufacturing	254
12.4	The changing world of manufacturing	256
12.5	China – the new economic giant	258
12.6	Increasing demands for energy	260
12.7	Sustainable development – 1	262
12.8	Sustainable development – 2	264
12.9	The increasing demand for food – 1	266
12.10	The increasing demand for food – 2	268

13 Tourism 270

13.1	Holiday!	272
13.2	Global tourism is growing	274
13.3	The Lake District – 1	276
13.4	The Lake District – 2	278
13.5	Jamaica – totally tropical tourism	280
13.6	Jamaica – tourism and the environment	282
13.7	Extreme tourism – 1	284
13.8	Extreme tourism – 2	286
13.9	Ecotourism in the Amazon rainforest	288
13.10	Ecotourism and sustainable development	290

Unit 3 Local fieldwork investigation

Fieldwork and controlled assessment	292
-------------------------------------	-----

Exam skills and practice

How to be successful in exams	297
Exam-style question – The restless Earth	300
Exam-style question – Rocks, resources and scenery	301
Exam-style question – Challenge of weather and climate	302
Exam-style question – Living world	303
Exam-style question – Water on the land	304
Exam-style question – Ice on the land	305
Exam-style question – The coastal zone	306
Exam-style question – Population change	307
Exam-style question – Changing urban environments	308
Exam-style question – Changing rural environments	309
Exam-style question – The development gap	310
Exam-style question – Globalisation	311
Exam-style question – Tourism	312
Key for OS maps	313
Glossary	314
Index	318
