How to use this book	4	Understanding exam questions	7
Routes and assessment	6	Investigative Skills Assignment	8

B1 Part 1 Diet, exercise, hormones, genes, and drugs 12

B1.1 Diet and exercise	14	B1.9 Using hormones to control fertility	30
B1.2 Diet and health	16	B1.10 Controlling plant growth	32
B1.3 Infectious diseases	18	B1.11 Drugs and you	34
B1.4 Antibiotics and painkillers	20	B1.12 Testing new drugs	36
B1.5 Immunity and immunisation	22	Course catch-up	38
B1.6 The nervous system	24	AQA Upgrade	40
B1.7 Hormones and control of the body	26	Exam-style questions	41
B1.8 How hormones control the menstrual cycle	28		

B1 Part 2 Surviving and changing in the environment 42

B1.13 Animal adaptations	44	B1.25 Cloning	68
B1.14 Plant adaptations	46	B1.26 Genetic engineering	70
B1.15 Extreme adaptations	48	B1.27 GM crops	72
B1.16 Competition for resources	50	B1.28 Concerns about GM crops	74
B1.17 Changes in distribution	52	B1.29 Classification	76
B1.18 Indicating pollution	54	B1.30 Surviving change	78
B1.19 Pyramids of biomass	56	B1.31 Evolution in action	80
B1.20 Energy flow in food chains	58	B1.32 Evolutionary theory	82
B1.21 Recycling in nature	60	Course catch-up	84
B1.22 The carbon cycle	62	AQA Upgrade	86
B1.23 Variation	64	Exam-style questions	87
B1.24 Reproduction	66		

C1 Part 1 Atoms, rocks, metals, and fuels 88

C1.1 Atoms and elements	90	C1.11 Copper	110
C1.2 Inside atoms	92	C1.12 Titanium and aluminium	112
C1.3 Inside compounds	94	C1.13 Making crude oil useful	114
C1.4 Chemical reactions	96	C1.14 Looking into oil	116
C1.5 Chemical equations	98	C1.15 Burning dilemmas	118
C1.6 Limestone	100	C1.16 Global warming	120
C1.7 The lime cycle	102	C1.17 Biofuels	122
C1.8 Products from limestone	104	Course catch-up	124
C1.9 Magnificent metals	106	AQA Upgrade	126
C1.10 Stunning steel	108	Exam-style questions	127

C1 Part 2 Polymers, plant oils, the Earth, and its atmosphere **128**

C1.18 Cracking crude oil	130	C1.27 Making margarine	148
C1.19 Polymers	132	C1.28 Inside the Earth	150
C1.20 Designer polymers	134	C1.29 Moving continents	152
C1.21 More designer polymers	136	C1.30 Gases in the air	154
C1.22 Polymer problems	138	C1.31 Forming the atmosphere	156
C1.23 Making ethanol	140	C1.32 The carbon cycle	158
C1.24 Using plant oils	142	Course catch-up	160
C1.25 Oils from fruit and seeds	144	AQA Upgrade	162
C1.26 Emulsions	146	Exam-style questions	163

P1 Part 1 Energy and efficiency **164**

P1.1 Infrared radiation and surfaces	166	P1.10 Specific heat capacity	184
P1.2 Solids, liquids, and gases	168	P1.11 Uses of specific heat capacity	186
P1.3 Conduction	170	P1.12 Understanding energy	188
P1.4 Convection	172	P1.13 Useful energy and energy efficiency	190
P1.5 Evaporation and condensation	174	P1.14 Using electricity	192
P1.6 Energy transfer by heating	176	P1.15 Paying for electricity	194
P1.7 Evaluating energy transfers	178	Course catch-up	196
P1.8 Heating and insulating buildings	180	AQA Upgrade	198
P1.9 Solar panels and payback time	182	Exam-style questions	199

P1 Part 2 Electrical energy and waves **200**

P1.16 Generating electricity	202	P1.26 Experiments with waves	222
P1.17 Fossil fuels and carbon capture	204	P1.27 The electromagnetic spectrum	224
P1.18 Nuclear power	206	P1.28 Communications and optics	226
P1.19 Biomass and biofuels	208	P1.29 Sound waves	228
P1.20 Solar and wind power	210	P1.30 The Doppler effect	230
P1.21 Energy from water	212	P1.31 Red-shift	232
P1.22 The National Grid	214	P1.32 The Big Bang theory	234
P1.23 Matching supply and demand	216	Course catch-up	236
P1.24 Waves all around us	218	AQA Upgrade	238
P1.25 Transverse and longitudinal waves	220	Exam-style questions	239

Glossary	240	Reference material	252
Index	246
