

Contents

How to use this book	4	Controlled Assessment information	8
Routes and assessment	6	Understanding Controlled Assessment	10
Understanding exam questions	7		

B1 Understanding ourselves 12

B1.1 Fitness and health	14	B1.11 Controlling your blood sugar levels	34
B1.2 Health and diet	16	B1.12 Controlling plant growth	36
B1.3 Preventing diseases	18	B1.13 Variation	38
B1.4 Infectious diseases and antibiotics	20	B1.14 Causes of genetic variation	40
B1.5 Immunity and immunisation	22	B1.15 Human characteristics	42
B1.6 The eye	24	B1.16 Inherited disorders	44
B1.7 The nervous system	26	Module summary	46
B1.8 Drugs	28	OCR Upgrade	48
B1.9 Tobacco and alcohol	30	Exam-style questions	49
B1.10 Controlling your body temperature	32		

B2 Understanding our environment 50

B2.1 Grouping organisms	52	B2.11 Adaptations of plants to their environment	72
B2.2 How to classify	54		
B2.3 Feeding relationships	56	B2.12 Surviving in a changing environment	74
B2.4 Food pyramids	58	B2.13 Evidence and examples of evolution	76
B2.5 Energy flow through the food chain	60	B2.14 Humans and pollution	78
B2.6 The carbon cycle	62	B2.15 Indicators of pollution	80
B2.7 The nitrogen cycle	64	B2.16 Sustainability	82
B2.8 Competition for resources	66	Module summary	84
B2.9 Interdependence between organisms	68	OCR Upgrade	86
B2.10 Adaptations of animals to their environment	70	Exam-style questions	87

C1 Carbon chemistry 88

C1.1 Making crude oil useful	90	C1.11 Cooking	110
C1.2 Making crude oil more useful	92	C1.12 Food additives	112
C1.3 Burning hydrocarbons	94	C1.13 Smells	114
C1.4 Using carbon fuels	96	C1.14 Nail varnish and testing	116
C1.5 Clean air	98	C1.15 Paints and pigments	118
C1.6 Air pollution	100	C1.16 Smart paints	120
C1.7 Alkanes and alkenes	102	Module summary	122
C1.8 Making polymers	104	OCR Upgrade	124
C1.9 Designer polymers	106	Exam-style questions	125
C1.10 Polymer problems	108		

C2 Chemical resources 126

C2.1 The structure of the Earth	128	C2.11 Making salts – 1	148
C2.2 Plate tectonics and igneous rocks	130	C2.12 Making salts – 2	150
C2.3 Construction materials	132	C2.13 Fertilisers and crop yields	152
C2.4 Concrete	134	C2.14 Making fertilisers	154
C2.5 Copper	136	C2.15 Chemicals from salt	156
C2.6 Alloys	138	C2.16 Electrolysis of brine	158
C2.7 Corrosion	140	Module summary	160
C2.8 Making cars	142	OCR Upgrade	162
C2.9 Making ammonia	144	Exam-style questions	163
C2.10 Reversible reactions	146		

P1 Energy for the home 164

P1.1 Understanding heat and temperature	166	P1.11 Using light	186
P1.2 Specific heat capacity	168	P1.12 Cooking with waves	188
P1.3 Specific latent heat	170	P1.13 Communicating using waves	190
P1.4 Conduction and convection	172	P1.14 Analogue and digital communication	192
P1.5 Radiation and surfaces	174	P1.15 Wireless communication	194
P1.6 Insulating your home	176	P1.16 Seismic waves	196
P1.7 Useful energy and efficiency	178	P1.17 Waves and our atmosphere	198
P1.8 Introduction to waves	180	Module summary	200
P1.9 Electromagnetic waves and wave experiments	182	OCR Upgrade	202
		Exam-style questions	203
P1.10 Total Internal Reflection and fibre optics	184		

P2 Living for the future 204

P2.1 Electricity from the Sun	206	P2.10 Uses of radioactivity	224
P2.2 Other ways to use energy from the Sun	208	P2.11 The Solar System	226
P2.3 The dynamo effect, AC, and generators	210	P2.12 Asteroids, comets, and the Moon	228
P2.4 Generating and distributing electricity	212	P2.13 The Big Bang	230
P2.5 Fossil fuels and biomass	214	P2.14 The life cycle of stars	232
P2.6 Nuclear power	216	P2.15 Changing ideas on the Universe	234
P2.7 Global warming	218	Module summary	236
P2.8 Power and paying for electricity	220	OCR Upgrade	238
P2.9 Alpha, beta, and gamma radiation	222	Exam-style questions	239

Glossary	240	Reference material	252
Index	246
