Lifegame

Age 11+

Fella and Grebe have grown up on the Island, believing that the world beyond its shores is toxic and that the Islanders are the lucky survivors of a cataclysmic disaster. And then Fella, an orphan, discovers a diary, hidden fifteen years ago by someone who seemingly came from the Outside.

When, after a gripping chase, the friends manage to get to the Outside themselves, what they discover is terrifying. It forces them to understand the appalling truth about where they have come from, and why they were there.

'shocking, thought provoking and, in spite of it being set in a future time, painfully real and threatening today. I couldn't put it down.' *Wendy Cooling*
