

C Eclipses

1 Eclipses

a Label the Moon's position:

X where it causes a solar eclipse

Y where it causes a lunar eclipse

b Use the diagram to explain why lunar eclipses can be seen by many more people than solar eclipses.

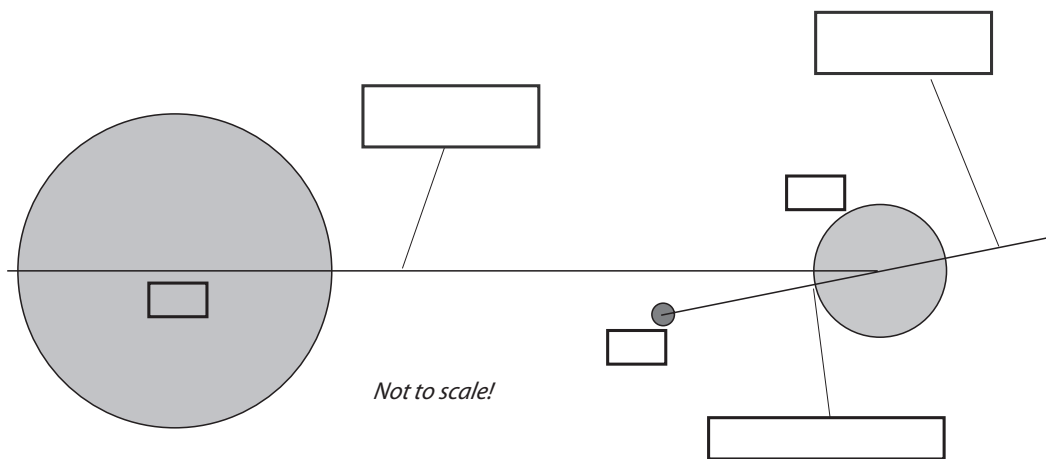

.....

.....

.....

2 Why eclipses are rare

This diagram shows why eclipses are not seen every month (not to scale).

a Complete the labels for the diagram.

b Use the diagram to explain why eclipses are rare.
